

**PRESERVATION GEORGETOWN
HISTORIC STRUCTURE PRESERVATION GRANT PROGRAM
2018 GRANT APPLICATION**

Preservation Georgetown (PG) offers grants once a year to assist with the preservation of residential or commercial historic structures built in the greater Georgetown area that were built before (and including) 1960. The structure also must be listed in the most recent City of Georgetown Historic Resources Survey. Note that this program is intended to assist with structural rather than cosmetic work. Grant funds are limited; therefore, this program may be competitive. **Additional policies, procedures, limitations and requirements are described on the following pages. Applicants are encouraged to read the entire application before beginning to complete it. PG contact information is on the last page.**

The United States Secretary of the Interior (SOI) developed standards for the treatment of historic properties, which are used by property owners, historical organizations, governments and others. The SOI Standards offer four distinct approaches to the treatment of historic properties — Preservation, Rehabilitation, Restoration and Reconstruction. These are defined terms. The standards and treatments for Preservation, Rehabilitation and Restoration are the accepted models for the projects eligible for this Program and serve among the review criteria for these grant applications. The SOI Standards may be found online at www.nps.gov/tps/standards.htm along with additional treatment guidelines regarding their use. Information also is available from PG and the City of Georgetown.

Application Fee \$10 (Make check payable to Preservation Georgetown)

GRANT POLICIES

1. A historic structure must be listed in the most recent Georgetown Historic Resources Survey and be built before (and including)1960 in order to be considered for a grant. Priority may be given to structures that are architecturally significant, endangered, within a historic district or owner occupied.
2. **Grants are restricted to project phases on which work has not begun at the time of awarding the Grant. (Grants are not considered for work already completed.)**
3. An applicant may have only one active grant at a time in a 12-month period.
4. Grant funds must be used within 12 months from the date of notification, or the grant will be voided. An applicant may request an extension in writing, with justification, which will be considered.
5. Grant amounts for building projects are fixed and do not increase due to unforeseen conditions encountered in construction.
6. PG is not responsible for supervision of the contractor during construction on building projects.
7. Approvals required by the City of Georgetown, the Historic and Architectural Review Commission (HARC) or any government agency must be obtained before the Grant Application is submitted to PG. Determining which approvals are necessary is the responsibility of the Applicant. (Information may be obtained from the City of Georgetown website at <https://georgetown.org/> or from the City Historic District Planner, 512-930-3581.)
8. Funding will not be awarded for new construction, vinyl or aluminum windows, landscaping, sidewalks, driveways, garages, fences, retaining walls, patios, patio covers, air conditioning systems, electrical work, or ADA/handicapped projects. Maintenance, such as painting, re-shingling or other cosmetic work, is considered to be the ongoing responsibility of the property owner and is generally not eligible for grant funding.
9. All work must be done according to the Secretary of the Interior's Standards for the Treatment of Historic Properties and associated Guidelines. They promote best practices and are available on the internet at www.nps.gov/tps/standards.htm
10. If replacement or reconstruction of exterior elements is part of the project, there should be pictorial, historical, or physical documentation of the original elements.
11. If wood elements such as windows, foundation skirting, porch balusters, railings, columns, or latticework are to be replaced, please submit some type of detail drawing showing the method of construction proposed and the specific type of materials to be used.

12. Please submit an itemized bid for each category of work for which you are requesting funding. For example, bids for foundation repair, porch restoration and roof replacement would require a separate cost breakdown for each of the three categories of work.
13. Make sure you have fulfilled the minimum requirements for digital images and historical photos. High-quality digital images are extremely important elements of your application. Images are presented to the Board of Directors, who makes the final decision on grant funding. Be sure to include a clear photo of the front façade of the structure and clear close-ups of areas to be repaired.
14. Although larger requests may be considered, it is anticipated that most grants approved under this program will be for \$7,500 or less. The average of grants awarded to date is \$3,400.
15. It is understood that Preservation Georgetown may seek public recognition for its contribution to a project. By submitting a grant application, the applicant agrees that, if a grant request is approved, the applicant authorizes the use by PG of project information and “before and after” photos to publicize PG, the Preservation Fund, the Preservation Grant Program and the importance of preservation.
16. Grant decisions are at the discretion of the PG Board of Directors and are final. Applications that are not funded may be updated and re-submitted in the next cycle.

CONDITIONAL GRANT REIMBURSEMENT INFORMATION and AGREEMENT

To indicate your agreement, please initial each item below, sign and return with your application:

_____ All grant funds are handled on a reimbursement basis.

_____ This means that the grant recipient will pay the contractor for work on the project, according to the terms of the contract between the grant recipient and the contractor.

_____ The grant recipient will then submit a Request for Reimbursement of these funds to PG in which the recipient will attest that the work has been completed as specified.

_____ The grant recipient will include proof of payment – such as a photocopy of the check made out to the contractor – along with a receipt for this payment signed by the contractor.

_____ If the grant recipient is paying for materials used in the project, receipts for these materials should also be submitted.

_____ Preservation Georgetown does not reimburse the grant recipient for contractors' fees until work on the project is completed.

_____ Preservation Georgetown reserves the right to review the project prior to payment.

_____ Preservation Georgetown will reimburse the grant recipient within 30 days following the submission of acceptable proof of payment.

_____ All work must be done according to the Secretary of the Interior's Standards for the Treatment of Historic Properties and the related Guidelines. It is the applicant's responsibility to become familiar with the standards and guidelines because they are an integral part of the conditions of the grant.

_____ Should you decide to use another contractor, change professionals (e.g., architect), or contract for additional work during the active period of this grant (12 months plus extensions approved by PG), you agree to notify Preservation Georgetown in writing of your intent.

_____ Preservation Georgetown reserves the right to cease funding of a grant project if Grant Policies and the Conditional Grant Reimbursement Agreement are not followed by the grant recipient.

AGREEMENT

I understand the payment policy of the Preservation Georgetown Grants Program and, if chosen to receive a grant, will be able to follow these procedures.
